AMAZING PRODUCTS TRUSTED BY THOUSANDS OF MEN AND WOMEN AROUND THE WORLD; EDI-USA® DOES BUSINESS DIFFERENTLY.

TRADITION: Initially founded in Pennsylvania, USA to manufacture anti-riot suits for local police, EDI-USA has grown to manufacture over 3,700 law enforcement & tactical products. EDI's staff works daily to create, design, and produce tactical gear to help law enforcement personnel succeed.

OUR CORE: Our heart is riot gear. We have perfected the design of crowd control equipment and manufacture some of the world's strongest riot shields, riot helmets and riot suits. Eventually moving into body armor, EDI-USA manufactures ballistic helmets, bullet-resistant vests and ballistic shields, as well as other duty gear including handcuffs & restraints and tactical accessories. All of our items are constantly being updated to adapt to today's surroundings, and we actively seek suggestions and product comments from the users we serve.

STREAMLINED EXPORT: International customers comprise of more than 50% of our business. Our international presence stretches long and wide from shipping to our neighbors in Canada and Mexico, all the way across the world to South America and Asia. Wherever you are, we will make sure you get what you need.

QUALITY TO THE MAX: In an industry where people's lives depend on the items we provide, EDI-USA takes quality very seriously. We have set ourselves apart with our strict **EDI-USA Quality -Pro Program**, which ensures quality from the inside-out. On a regular basis, we send our products to laboratories for independent testing, as well as maintain ISO 9001:2015 certification.

WE TRUST YOU TO PROTECT US,
SO WHY SHOULDN'T YOU TRUST US TO PROTECT YOU?

FREE SAMPLES PROGRAM FOR LAW ENFORCEMENT

EDI offers FREE SAMPLES to qualified law enforcement in the continental USA to try and test (includes return label, for law enforcement agencies only).

HANDCUFFS AND RESTRAINTS

RELIABLE AND SECURE. Looking for the perfect handcuff? EDI's handcuffs and leg cuffs are manufactured with the strongest carbon steel and anti-rust nickel treatment in the United States and in the world. Cuffs are produced with heat-treated locks, including double-locking to prevent prisoner tampering. Additionally, chains and hinges are double or triple secured to maintain strong control and use over many years.
