STRONG & RELIABLE PRODUCTS TRUSTED BY THOUSANDS OF MEN AND WOMEN AROUND THE WORLD. EXECDEFENSE USA® WORKS TO KEEP YOU SAFE.

TRADITION

Founded Pennsylvania, USA to manufacture body armor for local police, EDI-USA® has grown to manufacture over 4,500 law enforcement & tactical products. EDI's staff works daily to create, design, and produce body armor & tactical gear to help law enforcement & military personnel succeed.

OUR CORE PRODUCTS

We have perfected the design of body armor & crowd control equipment and manufacture some of the world's strongest **ballistic helmets**, **ballistic plates**, **bullet-resistant vests**, **ballistic shields** and **other body armor accessories**. In addition, our signature line of **riot suits**, **riot shields** and **riot helmets** are trusted by thousands of users across the USA and around the world. All of our items are regularly updated & enhanced to adapt to today's surroundings, and we actively seek user feedback to constantly improve the items that we manufacture.

FAST EXPORT & INTERNATIONAL SALES

International customers and export operations comprise of more than 50% of our business. Our international presence stretches long and wide from shipping to our neighbors in Canada and Mexico, all the way across the world to South America, Asia, Africa, and the Middle East. Wherever you are, we will make sure you get what you need, and our experienced sales reps will help guide you through the export process.

QUALITY CONTROL TO THE MAX

In an industry where security professional's daily lives depend on the products we provide, EDI-USA® takes quality very seriously. We have set ourselves apart with our strict EDI-USA® Quality-Pro Program, which ensures stringent quality control throughout our entire organization. On a regular basis, we send our products to NIJ-approved laboratories for ballistic testing, anti-stab testing, and anti-impact testing, and we maintain ISO 9001:2015 certification for our quality management system.

WE TRUST YOU TO PROTECT US, SO WHY SHOULDN'T YOU TRUST US TO PROTECT YOU?

FREE (T&E) SAMPLES PROGRAM FOR LAW ENFORCEMENT

EDI offers FREE (T&E) SAMPLES to law enforcement in the continental USA to test and evaluate (T&E) our items to make sure they serve you well pre-purchase.

WE LOVE CUSTOMIZING GEAR TO FIT YOUR NEEDS

“Over the course of my time at EDI-USA, no single order is ever the same in our office. We love getting user feedback and customizing to fit your mission.”

- Will Parker, EDI Senior Engineer, 11 years with EDI.

HIGH-CUT TACTICAL BALLISTIC HELMET (III-A)

W/ PICATINNY RAILS AND NVG MOUNT

EH-0881

SIZES: M, L, XL

The most popular of EDI-USA's ballistic helmets, the High-Cut Tactical Ballistic Helmet provides lightweight ballistic head protection, tested to III-A ambient, in a high-cut design. The helmet is compatible with a variety of audio communication devices, night vision goggles, lighting accessories, and other tactical attachments. The interior of the helmet is manufactured with enhanced EVA foam padding (removable to clean), and the helmet has an adjustable ratchet knob on the back to fine-tune the size to the user's head. Available with double chin strap, and include an adjustable nylon suspension system. This helmet is made for the pros.

All helmets are painted with weather resistant poly-urea paint and can be customized in the following colors or fabric helmet covers.

PASGT BALLISTIC HELMET (III-A)

EXH-0072

SIZES: M, L, XL

A classic helmet for decades, EDI-USA's PASGT Ballistic Helmet is tested to ballistic level III-A, ambient, and provides strong protection for a variety of ballistic threats up to III-A. Helmet includes comprehensive ear protection, adjustable nylon suspension system, interior mesh comfort pad system, and available with chin cup, or double chin strap. Boltless PASGT model available upon request.

MICH (ACH) BALLISTIC HELMET (III-A)

EH-0881

SIZES: S, M, L, XL

One of the US Military's top choices for ballistic head protection, the MICH (ACH) Ballistic Helmet provides strong protection tested to level III-A, ambient. The helmet is lightweight, includes ear protection, and is manufactured with a durable interior padding system for maximum comfort. Available with chin cup, or double chin strap.

MICH (ACH) TACTICAL BALLISTIC HELMET (III-A), W/ PICATINNY RAILS AND NVG MOUNT

EH-0881-SR

SIZES: S, M, L, XL

The tactical version of the MICH (ACH) Ballistic Helmet, this model includes two side picatinny rails for attachment accessories, and front aluminum NVG mount. The helmet includes a comfortable interior padding system is available with chin cup, or double chin strap.

BALLISTIC HELMETS

BALLISTIC VISOR (III-A), CLAMP MODEL

E-MTBV-C

Attachable to EDI-USA's PASGT and MICH (ACH) helmets, as well as equivalent brand helmets, this visor is tested to III-A, ambient, and resists ballistic threats up to III-A. Visor includes a durable under-helmet clamping system and adjustable hardened slide system to tighten around PASGT or MICH (ACH) helmets.

BALLISTIC VISOR (III-A), PICATINNY SIDE RAIL ADAPTER MODEL

E-MTBV-PR

Attachable to EDI-USA's High-Cut Tactical helmet or MICH (ACH) Helmet with picatinny rails, this visor includes picatinny rail adapters to slide directly into the side rails of the helmet, and securely attach during operations. Tested to III-A, ambient, ballistic resistance.

RIOT VISOR, CLAMP MODEL

E-RV-C

Designed for non-ballistic anti-impact threats, this riot visor is attachable to EDI-USA's PASGT and MICH (ACH) helmets, as well as equivalent brands. Custom dimensions available.

RIOT VISOR, PICATINNY SIDE RAIL ADAPTER MODEL

E-RV-PR

Attachable to EDI-USA's High-Cut Tactical helmet or MICH (ACH) Helmet with picatinny rails, the visor offers protection for non-ballistic anti-impact threats. Visor slides securely into side rails. Custom dimensions available.

All helmets are painted with weather resistant poly-urea paint and can be customized in the following colors or fabric helmet covers.

BALLISTIC HELMETS

CLASSIC ANTI-IMPACT BUMP HELMET (NON-BALLISTIC)

EDI-CBH01

SIZES: S, M, L, XL *1 size fits all.

Used for non-ballistic operations, EDI-USA's Classic Anti-Impact Bump Helmet is manufactured with strong polycarbonate and includes a comfortable anti-shock comfort pad system for the user's head. Includes a durable adjustable nylon suspension system, rubber chin cup, and quick-release buckle.

TACTICAL ANTI-IMPACT BUMP HELMET (NON-BALLISTIC)

EDI-HBH01

SIZES: S, M, L, XL *1 size fits all.

Strong and lightweight, this helmet is manufactured with strong polycarbonate and resists anti-impact threats (non-ballistic). This tactical style helmet includes two side picatinny rails, and front NVG mount for various accessory attachments. Equipped with an adjustable ratchet knob to fine to the user's head size, this helmet allows users to implement tactical operations without the weight of a ballistic helmet. Includes a durable adjustable nylon suspension system, with chin strap and standard buckle.

BALLISTIC FACE MASK, III-A (FULL FACE STYLE)

ED-BFM-F

Covering the user's full face with two eye slits, this ballistic face mask helps protect the user ballistic penetration and shrapnel tested to level III-A, ambient. Mask includes an adjustable suspension system to attach securely to user's head. This full face style fits best without a helmet.

BALLISTIC FACE MASK, III-A (HALF FACE STYLE)

ED-BFM-H

Manufactured with durable ballistic material and tested to III-A, ambient, this ballistic face mask helps protect the user ballistic penetration and shrapnel. Mask includes an adjustable suspension system to attach securely to user's head, and two eye slits are included in the mask. This half-face style is ideal to wear with ballistic helmets.

BULLET RESISTANT VESTS

EDI-USA® CLASSIC BULLET RESISTANT VEST

EXV-092

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

EDI-USA's most popular ballistic vest, this vest provides straight forward protection, tested to level III-A (ambient). Manufactured with durable nylon and polyester in jet black, this overt vest can be easily adjusted on the shoulders & waste, and can fit both males & females. Includes front and back external pockets for hard armor plates (HAP's). Badges / patch customization available, and additional Velcro available for patch attachments.

FULL MOLLE BULLET RESISTANT VEST

EXV-21

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Popular for patrol operations, this durable vest includes MOLLE lines on front, back, sides, for users to securely attach MOLLE attachments. Tested to level III-A (ambient), this vest is movable and lightweight, to allow full mobility during operations. The shoulders and waste feature strong adjustable Velcro to help fit the vest securely to the user's body. Includes front and back external pockets for hard armor plates (HAP's). Badges / patch customization available, and additional Velcro available for patch attachments.

TACTICAL MOLLE BULLET RESISTANT VEST

EXV-77 SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

This overt vest performs well for tactical, patrol, and stationary operations. Lined with durable MOLLE webbing on the front, back, and sides, users can attach MOLLE attachment / pouches with ease. The vest adjusts well on its shoulders with adjustable straps and on its waste with a secure external hidden cummerbund. The vest includes a horizontal Velcro patch (female Velcro) on front & back and includes front and back external pockets for hard armor plates (HAP's). Badges / patch customization available, and additional Velcro available for patch attachments.

BULLET RESISTANT VESTS

FEMALE BULLET RESISTANT VEST

FXM-077

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Designed to fit to the form of a female's body, this vest features a 'bubble' area around the chest to allow space for the user's breasts, along with a special 'wide-cut' around the sides to help ensure a proper fit to a female's body. Tested to level III-A (ambient) this vest can be adjusted on the shoulders, or sides, in order to adjust correct to the user's body. Badges / patch customization available, and additional Velcro available for patch attachments.

HIGH TACTICAL 360 BULLET RESISTANT VEST

ED-TX229

SIZES: M, L, XL

One of EDI-USA's most trusted vests for high-intensity tactical operations, this full vest includes front, back, sides, shoulders, upper arm, neck, and groin ballistic protection. All parts are tested to level III-A (ambient) and are inserted within the vest to allow good mobility of the user. The vest includes MOLLE webbing lines on the front, back, and sides, which allows users to attach pouches and accessories to the vest. The vest includes a horizontal Velcro patch (female Velcro) on front & back and includes front and back external pockets for hard armor plates (HAP's). Badges / patch customization available, and additional Velcro available for patch attachments.

CONCEALABLE INNER BULLET RESISTANT VEST

EXV-055

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Designed to wear under the user's shirt as a covert style vest, this inner concealable vest is tested to level III-A (ambient) and is manufactured with soft cotton fabric to enhance the comfort of the user. This vest is designed to be worn during hot or cold weather operations, and is flexible to help enhance mobility of the user. Available in black or white. Badges / patch customization available, and additional Velcro available for patch attachments.

INNER VIP BALLISTIC T-SHIRT

ED-PTS01 SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

One of EDI-USA's most unique bullet resistant vests, this lightweight ballistic t-shirt features extra-thin ballistic panels, tested to level III-A, (ambient) and is extremely lightweight and flexible. The t-shirt carrier is produced with extra-soft & flexible neoprene fabric, which enhances comfort of the end user for long or short operations. Additional carriers are available with mesh fabric (for operations in hot climates), and each carrier features a side zipper to help securely fit the ballistic t-shirt to the user's body. Available in black or white.

BUOYANT FLOTATION BULLET RESISTANT VEST

EFV-721 SIZES: UNIVERSAL (ONE SIZE FITS ALL)

Developed to support navy, marine, and coast guard operations, EDI-USA's flotation bullet resistant vest provides up to 24 hours of flotation capability, along with ballistic protection tested to level III-A (ambient). This vest includes front, back, neck, and shoulder ballistic protection, and is integrated with EDI-USA's MARINE-X flotation foam. The vest can securely attach to the user with a wrap around belt, and can be easily adjusted for size with adjustable shoulder and side straps. The vest includes a horizontal Velcro patch (female Velcro) on front and includes front and back external pockets for hard armor plates (HAP's). Badges / patch customization available, and additional Velcro available for patch attachments.

TACTICAL PLATE CARRIER

ED-B02 SIZES: UNIVERSAL (ONE SIZE FITS ALL)

EDI-USA's next generation tactical plate carrier, with quick release system, provides users with comprehensive protection during tactical situations. Lined with laser-cut MOLLE webbing on the front and back, this plate carrier allows users to attach pouches / accessories easily. The carrier is fitted with front & back plate pockets (fits standard shooters cut 10" x 12" hard armor plates), along with inner pockets for III-A soft panels. The carrier is manufactured with durable nylon, and features hard plastic quick-release buttons on both sides of the waist, along with on the shoulders. Badges / patch customization available, and additional Velcro available for patch attachments.

ADVANCED BALLISTIC TECHNOLOGY

EDI-USA uses the most advanced ballistic materials within our vests to help ensure maximum protection. The ballistic fibers we use are lightweight tightly-compressed fibers, that are thermo-sealed within the ballistic panel wrappers to help prevent entrance of liquids or humidity. All of our ballistic panels are tested to yield a low trauma of backface deformation signature (BFS) and are designed for user comfort & mobility.

CANINE (K9) BALLISTIC VEST

EXV-27D

SIZES: STANDARD (GERMAN SHEPHERD OR SIMILAR) & LARGE (LARGER THAN GERMAN SHEPHERD)

The EDI-USA Canine (K9) bullet resistant vest is a lightweight ballistic vest, tested to level III-A (ambient) that helps protect K9's during security operations. Available in two (2) sizes, this K9 vest is lightweight and mobile, and includes Velcro strips (female Velcro) for users to attach department patches or name tags. The K9 vest has straps to easily adjust to different dog sizes and can be produced in different colors.

BOMB SUPPRESSION BLANKET EXV-09272-A/B

EDI-USA's bomb suppression blanket is designed to help suppress and minimize blasts & fragmentations from explosive threats, including IED's. Tested to NIJ III_A and STANAG 2920 Fragmentation (MIL STD 662F threats), the blanket will resist up to 70g of TNT. The bomb blanket is available with one (1) or two (2) safety circles in order to fasten the blanket to the circles and secure over the suspicion package or parcel. Available in standard or large size, and custom-made size & color are available.

BALLISTIC BLANKET E-B07-S/M/L

Custom-made to fit most operations situations, this item is available as a single carry soft ballistic shield, to be used to shield yourself or other during ballistic threat situations. It is available in Small, Medium, Large sizes, and can also be custom-made as per the size you need. The blanket is tested to III-A ballistic level (ambient) and is enclosed with a black nylon carrier that has handles attached to it. Custom colors available upon request.

Designed for executive & VIP security, the ballistic briefcase is tested to ballistic level III-A (ambient) and allows users to cover a person during a firearms threat. The briefcase can easily be opened and closed, and contains ballistic panels in either a nylon or leather briefcase. An optional concealed holster (for handguns) can be included inside the briefcase. Available in one standard and custom-made size & colors are available upon request.

BALLISTIC BRIEFCASE EBV-221

BALLISTIC BACKPACK INSERTS EBP-S/L

Ultra-lightweight ballistic inserts (tested to III-A) to insert into children or teen's backpacks to protect against bullets during active shooter situations. The inserts have a 'rounded-cut' to easily insert into backpacks and to zipper fully. The inserts are ultra-sonic sealed to help prevent entrance of liquids into the ballistic material, and they are available in standard size (kids) and large size (teens). Custom size inserts available upon request.

ADVANCED BALLISTIC TECHNOLOGY

EDI-USA uses the most advanced ballistic materials within our vests to help ensure maximum protection. The ballistic fibers we use are lightweight tightly-compressed fibers, that are thermo-sealed within the ballistic panel wrappers to help prevent entrance of liquids or humidity. All of our ballistic panels are tested to yield a low trauma of backface deformation signature (BFS) and are designed for user comfort & mobility.

BALLISTIC SHIELDS

EDI-USA® CLASSIC BALLISTIC SHIELD

E-BP507 AVAILABLE IN LEVELS: III-A | III | IV

STANDARD SIZE:

35.5" X 19.5" (90X50CM)

JUMBO SIZE:

47" X 23.5" (120CM X 60CM)

EDI-USA's Classic Ballistic Shield is used for stationary and tactical ballistic protection operations. Available with or without a ballistic view port, the shield is lightweight, sleek, and easy to carry. The shield includes a dynamic handle and arm rope on the back, and is compatible with tactical light attachments. Available in standard or large size, and custom-made size & color are available.

SHOOTERS CUT BALLISTIC SHIELD

E-BPSC AVAILABLE IN LEVELS: III-A | III | IV

SIZE: 31.5" X 19.5"

The Shooters Cut Ballistic Shield is an essential item used by entry team that need comprehensive protection. Equipped with shooter ports (weapon ports) on the top two sides, users can rest their firearm on the shooter ports while taking cover behind the shield. The shield includes a ballistic view port and dynamic handle and arm rope on the back. Additional sizes available.

SWAT BALLISTIC SHIELD (III-A)

E-SBS

SIZE: 30" X 20.5"

FOLDABLE "EXPANDIBLE" BALLISTIC SHIELD

E-FBS-01 AVAILABLE IN LEVELS: III-A | III

SIZE: 31.5" X 29"

Foldable and lightweight, this shield is designed to support users in high-tactical situations. The shield's movable "wings" can open or close which allows users to take cover in certain situation, or even rest their firearm on the shooting port in the middle. Easily transportable, this shield is ideal for entry into small areas, but can also be used in open range situations.

TACTICAL LIGHT

Easily attachable to the front of ballistic shields to help users with a clear field of vision during dark operations. The light includes hardware to easily attach to wherever the user wants on the shield, and includes a USB charger and Li-Ion battery. The light has multiple lighting levels and can be controlled by the user with a switch.

BALLISTIC SHIELD TROLLEY

Used to easily transport large / over-weight ballistic shields during operations or storage. Primarily used for level III or IV shields. The trolley helps to significantly reduce load bearing of user and increase operational efficiency.
