**STRONG & RELIABLE PRODUCTS TRUSTED BY THOUSANDS
OF MEN AND WOMEN AROUND THE WORLD.
EXECDEFENSE USA® WORKS TO KEEP YOU SAFE.**

TRADITION

Founded in Pennsylvania, USA to manufacture body armor for local police, EDI-USA® has grown to manufacture over 4,500 law enforcement & tactical products. EDI's staff works daily to create, design, and produce body armor & tactical gear to help law enforcement & military personnel succeed.

OUR CORE PRODUCTS

We have perfected the design of body armor & crowd control equipment and manufacture some of the world's strongest **ballistic helmets**, **ballistic plates**, **bullet-resistant vests**, **ballistic shields** and **other body armor accessories**. In addition, our signature line of **riot suits**, **riot shields** and **riot helmets** are trusted by thousands of users across the USA and around the world. All of our items are regularly updated & enhanced to adapt to today's surroundings, and we actively seek user feedback to constantly improve the items that we manufacture.

FAST EXPORT & INTERNATIONAL SALES

International customers and export operations comprise more than 50% of our business. Our international presence stretches long and wide from shipping to our neighbors in Canada and Mexico, all the way across the world to South America, Asia, Africa, and the Middle East. Wherever you are, we will make sure you get what you need, and our experienced sales reps will help guide you through the export process.

QUALITY CONTROL TO THE MAX

In an industry where security professionals' daily lives depend on the products we provide, EDI-USA® takes quality very seriously. We have set ourselves apart with our strict EDI-USA® Quality-Pro Program, which ensures stringent quality control throughout our entire organization. On a regular basis, we send our products to NIJ-approved laboratories for ballistic testing, anti-stab testing, and anti-impact testing, and we maintain ISO 9001:2015 certification for our quality management system.

**WE TRUST YOU TO PROTECT
US, SO WHY SHOULDN'T YOU
TRUST US TO PROTECT YOU?**

FREE (T&E) SAMPLES PROGRAM FOR LAW ENFORCEMENT

EDI offers FREE SAMPLES to law enforcement in the continental USA to test and evaluate (T&E) our items to make sure they serve you well pre-purchase.

WE LOVE CUSTOMIZING GEAR TO FIT YOUR NEEDS

"Over the course of my time at EDI-USA, no single order is ever the same in our office. We love getting user feedback and customizing to fit your mission."

- Will Parker, EDI Senior Engineer, 11 years with EDI.

HIGH-CUT
TACTICAL
BALLISTIC
HELMET (III-A)

W/ PICATINNY RAILS AND NVG MOUNT
EXH-09708

SIZES: M, L, XL

The most popular of EDI-USA's ballistic helmets, the High-Cut Tactical Ballistic Helmet provides lightweight ballistic head protection, tested to III-A ambient, in a high-cut design. The helmet is compatible with a variety of audio communication devices, night vision goggles, lighting accessories, and other tactical attachments. The interior of the helmet is manufactured with enhanced EVA foam padding (removable to clean), and the helmet has an adjustable ratchet knob on the back to fine-tune the size to the user's head. Available with double chin strap, and includes an adjustable nylon suspension system. This helmet is made for the pros.

PASGT BALLISTIC HELMET (III-A)
EXH-0072

SIZES: M, L, XL

A classic helmet for decades, EDI-USA's PASGT Ballistic Helmet is tested to ballistic level III-A, ambient, and provides strong protection for a variety of ballistic threats up to III-A. Helmet includes comprehensive ear protection, adjustable nylon suspension system, interior mesh comfort pad system, and is available with chin cup, or double chin strap. Boltless PASGT model available upon request.

MICH (ACH) BALLISTIC HELMET (III-A)
EH-0881

SIZES: S, M, L, XL

One of the US Military's top choices for ballistic head protection, the MICH (ACH) Ballistic Helmet provides strong protection tested to level III-A, ambient. The helmet is lightweight, includes ear protection, and is manufactured with a durable interior padding system for maximum comfort. Available with chin cup, or double chin strap.

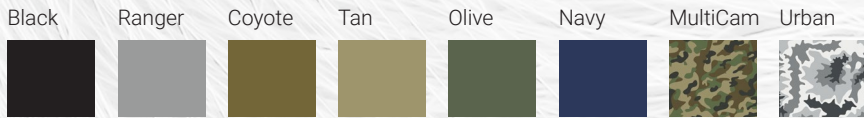

MICH (ACH) TACTICAL BALLISTIC HELMET
(III-A), W/ PICATINNY RAILS AND NVG MOUNT
EH-0881-SR

SIZES: S, M, L, XL

The tactical version of the MICH (ACH) Ballistic Helmet, this model includes two side picatinny rails for attachment accessories, and front aluminum NVG mount. The helmet includes a comfortable interior padding system and is available with chin cup, or double chin strap.

All helmets are painted with weather resistant poly-urea paint and can be customized in the following colors or fabric helmet covers.

BALLISTIC HELMETS

BALLISTIC VISOR (III-A), CLAMP MODEL E-MTBV-C

Attachable to EDI-USA's PASGT and MICH (ACH) helmets, as well as equivalent brand helmets, this visor is tested to III-A, ambient, and resists ballistic threats up to III-A. Visor includes a durable under-helmet clamping system and adjustable hardened slide system to tighten around PASGT or MICH (ACH) helmets.

BALLISTIC VISOR (III-A), PICATINNY SIDE RAIL ADAPTER MODEL E-MTBV-PR

Attachable to EDI-USA's High-Cut Tactical helmet or MICH (ACH) Helmet with picatinny rails, this visor includes picatinny rail adapters to slide directly into the side rails of the helmet, and securely attach during operations. Tested to III-A, ambient, ballistic resistance.

RIOT VISOR, CLAMP MODEL E-RV-C

Designed for non-ballistic anti-impact threats, this riot visor is attachable to EDI-USA's PASGT and MICH (ACH) helmets, as well as equivalent brands. Custom dimensions available.

RIOT VISOR, PICATINNY SIDE RAIL ADAPTER MODEL E-RV-PR

Attachable to EDI-USA's High-Cut Tactical helmet or MICH (ACH) Helmet with picatinny rails, this visor offers protection for non-ballistic anti-impact threats. Visor slides securely into side rails. Custom dimensions available.

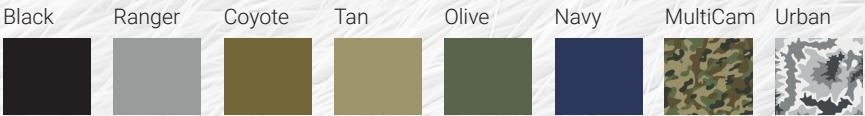

CLASSIC ANTI-IMPACT BUMP HELMET (NON-BALLISTIC)

EDI-CBH01 SIZES: UNIVERSAL SIZE *1 size fits all.

Used for non-ballistic operations, EDI-USA's Classic Anti-Impact Bump Helmet is manufactured with strong polycarbonate and includes a comfortable anti-shock comfort pad system for the user's head. Includes a durable adjustable nylon suspension system, rubber chin cup, and quick-release buckle.

All helmets are painted with weather resistant poly-urea paint and can be customized in the following colors or fabric helmet covers.

TEST REPORTS/CERTIFICATIONS

Test reports & certifications available upon request. Available in English & Spanish

BALLISTIC HELMETS

TACTICAL ANTI-IMPACT BUMP HELMET

(NON-BALLISTIC) EDI-HBH01 SIZES: UNIVERSAL SIZE *1 size fits all.

Strong and lightweight, this helmet is manufactured with strong polycarbonate and resists anti-impact threats (non-ballistic). This tactical style helmet includes two side picatinny rails, and front NVG mount for various accessory attachments. Equipped with an adjustable ratchet knob to fine-tune to the user's head size, this helmet allows users to implement tactical operations without the weight of a ballistic helmet. Includes a durable adjustable nylon suspension system, with chin strap and standard buckle.

BALLISTIC FACE MASK, III-A (FULL FACE STYLE)

ED-BFM-F

Covering the user's full face with two eye slits, this ballistic face mask helps protect the user against ballistic penetration and shrapnel tested to level III-A, ambient. Mask includes an adjustable suspension system to attach securely to user's head. This full face style fits best without a helmet.

BALLISTIC FACE MASK, III-A (HALF FACE STYLE) ED-BFM-H

Manufactured with durable ballistic material and tested to III-A, ambient, this ballistic face mask helps protect the user against ballistic penetration and shrapnel. Mask includes an adjustable suspension system to attach securely to user's head, and two eye slits are included in the mask. This half-face style is ideal to wear with ballistic helmets.

TACTICAL PTT HEADSET

EDI's push-to-talk (PTT) headset is optimal for hands-free communication while maintaining 360° hearing in combat situations. Compatible w/ High-Cut helmets and MICH helmets w/ side rails. Also wearable standalone via headband option. Detachable mic can be positioned on either side of

user's head. Windproof design and adjustable positioning slot minimize noise interference. Two additional directional mics on front & back of helmet maintain 360° environmental hearing. Toggle between 5 sound modes to adapt to various ambient noise levels. Multiple adapters available for different radio types & brands.

ARC RAIL ADAPTERS

EDI's ARC rail helmet adapters enable attachment of PTT earphones directly to ballistic / riot helmets via picatinny siderails. Built-in rotary mount enables users to uncover their ears and stow earphones when not in use. Multiple colors available.

RIFLE-RESISTANT HELMETS

RIFLE-RESISTANT BALLISTIC HELMET (MICH STYLE) **EXH-0992**

SIZES: M, L, XL

EDI's top seller for protection against rifle ballistic threats. Tested to resist up to one (1) shot of 7.62x51mm (149g) M80 FMJ rifle round, this helmet weighs only 4.4 lbs (2.0kg, for size L) without need for extra covers or plates. Shell is only 0.5" (12.5mm) thick but fully integrated with EDI's proprietary ballistic technology. Designed in standard MICH ACH style, w/ ear protection and inner ratchet knob for fit adjustment. Also available with side picatinny rails and front NVG mount.

RIFLE-RESISTANT BALLISTIC HELMET (HIGH-CUT STYLE)

EXH-0999 **SIZES: M/L, L/XL**

EDI's comms device-compatible option for protection against rifle ballistic threats. Consists of a high-cut base (NIJ level III-A, ambient) with additional front and back rifle-resistant covers (NIJ level III, ambient). Each cover is tested to resist up to 1 shot of rifle round 7.62x51 M80 or 5.56x45 M193. Helmet base includes anti-trauma padding, ratchet-adjustable suspension, and a durable quick-release chinstrap.

RIFLE-RESISTANT BALLISTIC VISOR

E-RBV

EDI's rifle-resistant ballistic visor provides the highest level of ballistic protection at the lightest weight. Designed for combat and elite law enforcement operations, it is tested to resist rifle rounds up to 1 shot of 7.62 FMJ. Made of advanced ceramic composite materials; comes in full cut or Spartan cut. Features bolt-free fastening system.

EDI-USA® CLASSIC BULLET RESISTANT VEST

EXV-092

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

EDI-USA's most popular ballistic vest, this vest provides straightforward protection, tested to level III-A (ambient). Manufactured with durable nylon and polyester in jet black, this overt vest can be easily adjusted on the shoulders & waist, and can fit both males & females. Includes front and back external pockets for hard armor plates (HAPs). Badges / patch customization available, and additional Velcro available for patch attachments.

FULL MOLLE BULLET RESISTANT VEST

EXV-21

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Popular for patrol operations, this durable vest includes MOLLE lines on front, back, and sides, for users to securely affix MOLLE attachments. Tested to level III-A (ambient), this vest is flexible and lightweight, to allow full mobility during operations. The shoulders and waist feature strong adjustable Velcro to help fit the vest securely to the user's body. Includes front and back external pockets for hard armor plates (HAPs). Badges / patch customization available, and additional Velcro available for patch attachments.

TACTICAL MOLLE BULLET RESISTANT VEST

EXV-77

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

This overt vest performs well for tactical, patrol, and stationary operations. Lined with durable MOLLE webbing on the front, back, and sides so users can affix MOLLE attachments / pouches with ease. The vest adjusts well on its shoulders with adjustable straps and on its waist with a secure external hidden cummerbund. The vest includes a horizontal Velcro patch (female Velcro) on front & back and includes front and back external pockets for hard armor plates (HAPs). Badges / patch customization available, and additional Velcro available for patch attachments.

FEMALE BULLET RESISTANT VEST

FXM-077

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Designed to fit to the form of a female's body, this vest features a 'bubble' area around the chest to allow space for the user's breasts, along with a special 'wide cut' around the sides to help ensure a proper fit to a female's body. Tested to level III-A (ambient) this vest can be adjusted on the shoulders on the shoulders and sides in order to fit the user's body correctly. Badges / patch customization available, and additional Velcro available for patch attachments.

HIGH TACTICAL 360 BULLET RESISTANT VEST

ED-TX229

SIZES: M, L, XL

One of EDI-USA's most trusted vests for high-intensity tactical operations, this full vest includes front, back, sides, shoulders, upper arm, neck, and groin ballistic protection. All parts are tested to level III-A (ambient) and are inserted within the vest to optimize user mobility. The vest includes MOLLE webbing lines on the front, back, and sides, which allows users to attach pouches and accessories. The vest includes a horizontal Velcro patch (female Velcro) on front & back and includes front and back external pockets for hard armor plates (HAPs). Badges / patch customization available, and additional Velcro available for patch attachments.

CONCEALABLE INNER BULLET RESISTANT VEST

EXV-055

SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Designed to wear under the user's shirt as a covert style vest, this inner concealable vest is tested to level III-A (ambient) and is manufactured with soft cotton fabric to enhance user comfort. This vest is designed to be worn during hot or cold weather operations, and is flexible to help enhance user mobility. Available in black or white.

INNER VIP BALLISTIC T-SHIRT

ED-PTS01 SIZES: XS, S, M, L, XL, 2XL, 3XL, 4XL, 5XL

One of EDI-USA's most unique bullet resistant vests, this lightweight ballistic t-shirt features extra-thin ballistic panels, tested to level III-A (ambient) and is extremely lightweight and flexible. The t-shirt carrier is produced with extra-soft & flexible neoprene fabric, which enhances comfort of the end user for long or short operations. Additional carriers are available with mesh fabric (for operations in hot climates), and each carrier features a side zipper to help securely fit the ballistic t-shirt to the user's body. Available in black or white.

BUOYANT FLOTATION BULLET RESISTANT VEST

EFV-721 SIZES: UNIVERSAL (ONE SIZE FITS ALL)

Developed to support navy, marine, and coast guard operations, EDI-USA's flotation bullet resistant vest provides up to 24 hours of flotation capability, along with ballistic protection tested to level III-A (ambient). This vest includes front, back, neck, and shoulder ballistic protection, and is integrated with EDI-USA's MARINE-X flotation foam. The vest attaches securely to the user with a wrap-around belt and adjustable shoulder and side straps. The vest includes a horizontal Velcro patch (female Velcro) on the front, as well as front and back external pockets for hard armor plates (HAPs). Badges / patch customization available, and additional Velcro available for patch attachments.

TACTICAL PLATE CARRIER

ED-B02 SIZES: UNIVERSAL (ONE SIZE FITS ALL)

EDI-USA's next generation tactical plate carrier, with quick release system, provides users with comprehensive protection during tactical situations. Lined with laser-cut MOLLE webbing on the front and back, this plate carrier allows users to attach pouches / accessories easily. The carrier is fitted with front & back plate pockets (fits standard shooters cut 10"x12" hard armor plates), along with inner pockets for III-A soft panels. The carrier is manufactured with durable nylon, and features hard plastic quick-release buttons on both sides of the waist and on the shoulders. Badges / patch customization available, and additional Velcro available for patch attachments.

CANINE (K9) BALLISTIC VEST

EXV-27D

SIZES: STANDARD (GERMAN SHEPHERD OR SIMILAR) & LARGE (LARGER THAN GERMAN SHEPHERD)

The EDI-USA Canine (K9) bullet resistant vest is a lightweight ballistic vest, tested to level III-A (ambient) that helps protect K9s during security operations. Available in two (2) sizes, this K9 vest is lightweight and mobile, and includes Velcro strips (female Velcro) for users to attach department patches or name tags. The K9 vest has straps to easily adjust to different dog sizes and can be produced in different colors.

ADVANCED BALLISTIC TECHNOLOGY

EDI-USA uses the most advanced ballistic materials within our vests to help ensure maximum protection. The ballistic fibers we use are lightweight tightly-compressed fibers, that are thermo-sealed within the ballistic panel wrappers to help prevent entrance of liquids or humidity. All of our ballistic panels are tested to yield a low trauma of backface deformation signature (BFS) and are designed for user comfort & mobility.

EMS RESPONDER BODY ARMOR

EMS / EMT HIGH-VIS BALLISTIC VEST (EXV-E22)

Designed specifically for EMS / EMT personnel operating in dangerous areas, this vest is manufactured w/ adjustable shoulder & waist straps for comfort and mobility, in bright high-visibility yellow w/ a reflective gray band. Includes identifying Velcro patches on front & back. Tested to ballistic level III-A / HG2. Can also be produced w/ anti-stab and anti-spike protection built-in upon request. Comes with 1 over-sized utility / medical pouch, along with 1 long pouch that can be used for flashlights, medical items, or other equipment, and 1 radio pouch with a Velcro closure strap.

EMS / EMT PLATE CARRIER (PC-EMT-01)

This plate carrier is designed for use by paramedics and other EMS/EMT first responders. Produced in a sleek, comfortable, breathable design. Features navy blue fabric and over-sized Velcro patches on front and back to identify the user. Includes adjustable shoulder & waist straps (clip closure). Carrier alone does not include any ballistic protection; designed to hold standard level III, III+ or IV hard armor plates (HAPs) in front & back (shooters cut only). Can also be made with level III-A soft armor panels, as well as built-in anti-stab and anti-spike protection, upon request.

EMS / EMT MICH BALLISTIC HELMET (NAVY BLUE) (E-EBH)

This ballistic helmet is designed for EMS / EMT first responders and paramedic teams, in classic MICH style; tested to ballistic level III-A (ambient) as well as STANAG 2920 (V50) ballistic fragmentation standards. Navy blue color and white lettering reading "EMS" (or other custom text) identify the user. Strong interior padding and adjustable chin strap (rubber chin cup or double chin strap) for maximum comfort. Custom options: Available with or without side rails & front mount; interior suspension system can be made w/ adjustable ratchet knob.

FIRE RESPONDER BODY ARMOR

FIRE BALLISTIC VEST (FRBV-01R)

Designed specifically for firefighter personnel operating in dangerous areas, this vest is manufactured w/ adjustable shoulder & waist straps for comfort and mobility, in bright red and with identifying Velcro patches on front & back. Tested to ballistic level III-A / HG2; can also be produced w/ anti-stab and anti-spike protection built-in upon request. Comes with 2 over-sized utility pouches, 2 long pouches for flashlights or other equipment, and 2 radio loops on the shoulders.

FIRE PLATE CARRIER (PC-FPC-01)

This plate carrier is produced specifically for use by fire first responders, in a sleek, comfortable, breathable design. Features bright red fabric and over-sized Velcro patches on front and back to identify the user. Includes adjustable shoulder & waist straps (clip closure). Carrier alone does not include any ballistic protection; designed to hold standard level III, III+ or IV hard armor plates (HAPs) in front & back (shooters cut only). Can also be made with level III-A soft armor panels, as well as built-in anti-stab and anti-spike protection, upon request.

FIREFIGHTER MICH BALLISTIC HELMET (RED) (E-FBH)

This ballistic helmet is designed for fire first responders in classic MICH style; tested to ballistic level III-A (ambient) as well as STANAG 2920 (V50) ballistic fragmentation standards. Bright red color and white lettering reading "FIRE" (or other custom text) identify the user. Strong interior padding and adjustable chin strap (rubber chin cup or double chin strap) for maximum comfort. Custom options: Available with or without side rails & front mount; interior suspension system can be made w/ adjustable ratchet knob.

BOMB SUPPRESSION BLANKET EXV-09272-A/B

EDI-USA's bomb suppression blanket is designed to help suppress and minimize blasts & fragmentations from explosive threats, including IEDs. Tested to NIJ III-A and STANAG 2920 Fragmentation (MIL STD 662F threats), the blanket will resist up to 70g of TNT. The bomb blanket is available with one (1) or two (2) safety circles in order to secure the blanket over the suspicious package or parcel. Available in standard or large size; custom sizes and colors also available upon request.

BALLISTIC BLANKET E-B07-S/M/L

Custom-made to fit most operational situations, this item is available as a single-carry soft ballistic shield, to protect yourself or others during ballistic threat situations. It is available in Small, Medium, Large, or custom sizes upon request. The blanket is tested to level III-A (ambient) ballistic resistance and is enclosed with a black nylon carrier that has handles attached to it. Custom colors available upon request.

Designed for executive & VIP security, the ballistic briefcase is tested to level III-A (ambient) and allows users to cover a person during a firearms threat. The shell can easily be opened and closed, and contains ballistic panels in either a nylon or leather briefcase. An optional concealed holster (for handguns) can be included inside the briefcase. Comes in one standard size; custom sizes and colors are available upon request.

BALLISTIC BRIEFCASE EBV-221

BALLISTIC BACKPACK INSERTS EBP-S/L

Ultra-lightweight ballistic inserts (tested to III-A) to insert into children's or teens' backpacks to protect against bullets during active shooter situations. The inserts have a 'rounded-cut' to easily insert into backpacks and to zipper fully. The inserts are ultra-sonic sealed to help prevent entrance of liquids into the ballistic material, and they are available in standard size (kids) and large size (teens). Custom size inserts available upon request.

ADVANCED BALLISTIC TECHNOLOGY

EDI-USA uses the most advanced ballistic materials within our vests to help ensure maximum protection. The ballistic fibers we use are lightweight tightly-compressed fibers, that are thermo-sealed within the ballistic panel wrappers to help prevent entrance of liquids or humidity. All of our ballistic panels are tested to yield a low trauma of backface deformation signature (BFS) and are designed for user comfort & mobility.

BALLISTIC SHIELDS

EDI-USA® CLASSIC BALLISTIC SHIELD

E-BP507 AVAILABLE IN LEVELS: III-A | III | IV

STANDARD SIZE:

35.5" × 19.5" (90 × 50CM)

JUMBO SIZE:

47" × 23.5" (120CM × 60CM)

EDI-USA's Classic Ballistic Shield is used for stationary and tactical operations. Available with or without a ballistic view port, the shield is lightweight, sleek, and easy to carry. Includes a dynamic handle and arm rope on the back, and is compatible with tactical light attachments. Available in standard or large size; custom sizes and colors also available.

SHOOTERS CUT BALLISTIC SHIELD

E-BPSC AVAILABLE IN LEVELS: III-A | III | IV

SIZE: 31.5" × 19.5"

The Shooters Cut Ballistic Shield is an essential item used by entry teams that need comprehensive protection. Shooter ports (weapon ports) on the top two sides allow the user to rest their firearm while taking cover behind the shield. The shield includes a ballistic view port and dynamic handle and arm rope on the back. Additional sizes available.

SWAT BALLISTIC SHIELD (III-A)

E-SBS

SIZE: 30" × 20.5"

Designed for hand-held use in tactical operations, this extremely lightweight ballistic shield includes left and right firearm ports, as well as a larger upper firearm port. The shield is very lightweight and can be carried with 1 hand, and includes a durable handle and arm strap on the back.

CUSTOM BALLISTIC SHIELD
SIZES & BUILDS AVAILABLE

BALLISTIC SHIELDS

FOLDABLE "EXPANDIBLE" BALLISTIC SHIELD

E-FBS-01 AVAILABLE IN LEVELS: III-A | III

SIZE: 31.5" × 29"

Foldable and lightweight, this shield is designed to support users in high-tactical situations. The shield's movable "wings" can open or close, allowing users to take cover in certain situations, or even rest their firearm on the shooting port in the middle. Easily transportable, this shield is ideal for entry into small areas, but can also be used in open range situations.

TACTICAL LIGHT

Easily attachable to the front of ballistic shields to provide users with a clear field of vision during dark operations. The light includes hardware to easily attach to wherever the user wants on the shield, and includes a USB charger and Li+ ion battery. The light has multiple brightness levels and can be controlled by the user with a switch.

BALLISTIC SHIELD TROLLEY

Eases transport of large/overweight ballistic shields during operations or storage. Primarily used for level III or IV shields.

RIOT HELMETS

PROTEC-X RIOT HELMET

EDX-072

SIZES: M, L, XL

An EDI-USA classic for years, designed to resist and withstand the toughest riot threats.

TERMINATOR-X RIOT HELMET

EDX-074C SIZE: UNIVERSAL

Includes additional integrated steel face cage for extra impact protection. Adjustable inner headband.

MINI - BUBBLE RIOT HELMET

EDX-BR07 SIZE: UNIVERSAL

Slightly smaller than the standard bubble riot helmet, this model is designed for operations that require enhanced mobility. Adjustable inner headband.

BUBBLE RIOT HELMET

EDX-BR07 SIZE: UNIVERSAL

Fitted with a bubble face visor to allow additional space for the user's face. Adjustable inner headband.

All helmets are painted with weather resistant poly-urea paint and can be customized in the following colors.

CUSTOM HELMET COLORS AND HELMET INSCRIPTIONS AVAILABLE

RIOT SHIELDS

EDI-USA® CLASSIC RIOT SHIELD EXS-221-S/J

SIZES: STANDARD (35.5" × 19.5") OR JUMBO (47" × 23.5")

This classic shield is trusted by thousands of users in the USA and around the world. Includes a durable arm handle and forearm rope. Ambidextrous handle options and other custom handle options available.

RUB-X RIOT SHIELD

EXS-272S

SIZE: STANDARD (35.5" × 19.5")

Produced with a hardened-nylon black border for extra impact protection (and shelf life enhancement), this shield includes a groove around the entire perimeter to help resist impacts up to 187 J of energy.

INTERLOCKING RIOT SHIELD

E-IRL-S/M/L SIZES: S, M, L

Used in tactical situations, this shield creates an interlocking riot shield "wall." Designed to resist high impacts up to 187 J of energy, this shield is equipped with a strong handle system and an extra piece of reinforced polycarbonate.

HORSE / EQUINE RIOT GEAR

HORSE ANTI-RIOT EYE VISOR

E-HNV-01 SIZES: UNIVERSAL (ONE SIZE FITS ALL)

This 3-mm thick polycarbonate visor protects the police horse's eyes from frontal attacks, thrown objects, and strike threats, while maintaining the horse's range of motion and field of vision during mounted riot-control operations.

HORSE ANTI-RIOT MUZZLE PROTECTION PAD

E-HMP-01 SIZES: UNIVERSAL (ONE SIZE FITS ALL)

Protects police horse's muzzle against thrown objects and strike threats during riot-control operations. Consists of three layers: leather underside, cross-linked LDPE foam, and HDPE exterior shell. Protects the horse from frontal attacks while maintaining horse's range of motion & field of vision. Single size, adjustable with straps.

HORSE LEG GUARD (FRONT PAIR)

E-HLG-F SIZES: UNIVERSAL (ONE SIZE FITS ALL)

These leg guards protect police horses against thrown objects and hits during riot-control operations. Two acrylic-coated nylon fabric layers enclose LDPE foam, w/ a hard exterior HDPE shell. Front leg guards inc. additional knee protection. Single-size; attachment and adjustment via 30mm-wide reflective straps. Front pair are 19 1/4" (49 cm) long.

HORSE LEG GUARD (REAR PAIR)

E-HLG-B SIZES: UNIVERSAL (ONE SIZE FITS ALL)

These leg guards protect police horses against thrown objects and hits during riot-control operations. Two acrylic-coated nylon fabric layers enclose LDPE foam, w/ a hard exterior HDPE shell. Single-size; attachment and adjustment via 30mm-wide reflective straps. Rear pair are 12 1/2" (32 cm) long.

HORSE CHEST GUARD

E-HCG SIZES: UNIVERSAL (ONE SIZE FITS ALL)

Three (3) molded plastic pieces (one on front, two on sides) protect horse's frontal torso against thrown objects and hits. An acrylic-coated nylon exterior and polyester charmeuse interior enclose a layer of cross-linked LDPE foam, with an HDPE hard shell on the outer surface. Single-size, adjustable with straps. Front panel is 8 1/4" x 20" (21 cm x 51 cm).

HORSE PROTECTIVE BLANKET

E-HPB SIZES: UNIVERSAL (ONE SIZE FITS ALL)

Provides excellent protection for horse's torso against thrown objects, strikes, slashing, and incendiary/fire threats, during riot-control operations. Lightweight and flexible; composed of 36 HDPE panels. Fastens with five 50 mm-wide straps: three under the belly and two around the chest.

MARINE / FLOTATION GEAR

BULLET-RESISTANT FLOTATION VEST – CLASSIC STYLE

E-FLT01

Specially designed for marine tactical operations, this vest, tested to level III-A & HG2 (ambient), fastens easily w/ adjustable straps & buckles. Integrated with ballistic panels on front, back, neck, and shoulders. Features layer of MARINE-X flotation foam on front & back; buoyancy rate tested up to 150N, lasting for 24 hours in water for a wearer up to 220 lbs (100kg) in weight. Additional front and back pockets for inserting HAPs. Custom colors available.

BULLET-RESISTANT FLOTATION VEST – TACTICAL STYLE **EDI-BFS-01-MUL**

Tested to level III-A (ambient), this flotation vest is made w/ ultra-lightweight UHDPE ballistic fibers, providing high blast and multi-hit protection for user's front, back, neck, & shoulders against fragment and ballistic

threats up to 9mm or .44mag. Integrated w/ EDI's high-density MARINE-X polyurethane flotation foam to keep wearer afloat for up to 24 hours. Ideal for water patrol, coast guard, navy, marine police, and other security professionals working in open-water environments. Water-repellent polyester fabric carrier includes several pockets & attachments.

WS-3 FLOTATION VEST

SIZES: ADULT UNIVERSAL & ADULT OVERSIZE.

EDI's highest-visibility PFD w/ bright orange fabric and reflective strips on shoulders. This non-ballistic Type III flotation vest is designed to keep user afloat in calm waters; intended for water sport or general use. Vest fabric made of 200D nylon; denser 210D nylon weave option also available. Features 3 cross-chest buckle closures and large armholes to fit a wide range of adult body types.

WS-4 FLOTATION VEST

SIZES: XS, S, M, L, XL, XXL

The WS-4 general-use non-ballistic flotation vest is EDI's most customizable PFD model. With 4 cross-chest buckles, it is also our most secure. This Type III vest is designed to keep the user afloat in calm waters. Intended for water sport or general use. Vest fabric made of 200D nylon; denser 210D nylon weave option also available. Can also be made w/ more water-resistant neoprene upon request. Users can also choose between lighter-weight, more flexible PVC flotation foam, and heavier-duty polyethylene (PE) foam.

FLEX-KS FLOTATION VEST

SIZES: XS/S, M/L, & XL/XXL

EDI's Flex-KS general-use (non-ballistic) flotation vest is our highest-flexibility PFD model, with upper and lower size-adjustment straps on each side and a zipper closure. Originally designed for kayaking and sailing, this paddle vest is perfect for operations requiring easy maneuverability. Vest fabric is made of 200D nylon, with a denser 210D nylon weave option also available. Reflective strips on shoulders & pockets ensure user visibility in low light.

EDI-USA®
FRESHTAC
DOUBLE GAS
MASK

ED-GX201

Trusted by thousands of law enforcement and security personnel, this gas mask offers a full-face panoramic view and dual canister ports threaded to fit standard 40mm canisters. The FreshTac Gas Mask features a view port with anti-fog treatment, and a 6-point adjustable suspension system to fit snug onto the user's face. Two (2) filters are included with the mask; please view filter specifications for chemical resistance.

EDI-USA® PROTEC-X
GAS MASK
ED-GX027

One of EDI-USA's most popular gas masks for years, the PROTEC-X Gas Mask features a full-face viewport, with anti-fog treatment, and a front-facing gas mask filter. Equipped with a 5-point adjustable suspension system for a snug fit on users, this gas mask is ideal for tactical operations, as well as stationary operations. One (1) filter is included with the mask, please view filter specifications for chemical resistance.

BATONS & NON-LETHAL WEAPONS

TONFA BATON (PR-24)

EXTB-02

Manufactured with polycarbonate material, the T-Baton is used in anti-riot and patrol operations. It includes a durable textured grip handle and is tested for strong impact. Also available in polypropylene material. 24" length.

Includes textured handle

STRAIGHT BATON

EXV-03

Designed for patrol and riot operations, the straight baton is manufactured with durable polycarbonate for a strong impact. Baton includes a padded arm handle and nylon wrist string. 26" length & custom lengths available.

EXPANDIBLE BATON SERIES

EDI-USA® expandible batons are manufactured with some of the highest rated impact materials and are designed to keep law enforcement officers safe during dangerous situations. Available in black, chrome, or copper color, batons models can open with a flick of the wrist, and certain models are also available with a push-button function. Batons include a rounded safety tip on the end and fit easily in most standard baton holsters. Custom dimensions and lengths available.

EXPANDIBLE TONFA BATON (2-TUBE OR 3-TUBE)

E-ETB-2T / -3T

This is one of EDI's most durable batons. The longer and heavier 2-tube option has greater striking range and more power, while the shorter and lighter 3-tube model is swifter and more maneuverable. Each expandible TONFA is tested to resist the highest level of impact and deliver maximum force. Durable handle and indented arm grip (anti-sweat) help prevent the TONFA from falling out of the user's hand. Handle and back-handle are designed for Close-Quarters Combat and will resist high levels of deformation & flexing.

STEEL EXPANDIBLE BATON

EXB-07

NYLON (HARDENED) EXPANDIBLE BATON
